## **DETAILED ACTION**

### ***Claim Objections***

Claim 1 is objected to because of the following informalities: The claims are numbered 1a, 1b, 1c etc. The claim has been considered by the Examiner as one claim since there was no indication that further limitations were dependent from a base claim. If the applicant wishes to have dependent claims they should be number sequentially and show the proper dependency. Appropriate correction is required.

### ***Drawings***

The drawings are objected to because measurements are not needed in the drawings to show the size of the device. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Affeldt (US 1,530,538).

Art Unit: 3617

Affeldt discloses a base unit display comprised of a predetermined area 24 for holding advertising indicia or instructional literature and a predetermined area 14 for holding golf balls. The predetermined area 24 for the advertising indicia has indentations for removing the indicia. Means 32 are also included for holding other related equipment

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wittek, Sr. et al. (US 5,586,942) discloses a device for holding golf balls and other equipment. Simon et al (US 4,494,658) discloses a display with removable signs.
